

Student Learning Outcomes for B.A. in Art History

1. **Visual Analysis:** Ability to recognize, distinguish, and characterize styles of objects, artists, movements, media, etc.
2. **Past and Present History:** Familiarity with societies of past and present.
3. **Other Cultures:** Knowledge about cultures remote from students' own, attained through study of works of art produced by those cultures.
4. **Writing Skills:** Skills for writing critically and persuasively, with specific application to art history.
5. **Theories & Methods:** Awareness of major theories and interpretive debates in the study of art history.
6. **Objects in Societies:** Understanding of the roles objects play in societies; patrons and collectors, sites of exhibition and display (religious institutions, museums), critics and critical reviews.
