

UCI Assessment Grant Program—Spring 2012 Proposal Abstracts

- **Susan Coutin, Criminology (Doctoral-level)**

The Department of Criminology, Law and Society seeks funding to support a one-quarter Graduate Student Research assistant to assist the Department's Program Learning Outcomes Committee in evaluating two doctoral-level student learning outcomes: (1) writing for publication and grants, and (2) developing a scholarly specialization. Additionally, we seek to assess one mechanism through which learning is accomplished: (3) faculty mentoring.
