

## **UCI Assessment Grant Program—Spring 2008 Proposal Abstracts**

- **Susan Jarratt, Comparative Literature: Learning Outcomes for Comparative Literature Majors**

The goal of this project is to start a discussion among the faculty about assessment of the undergraduate major in Comparative Literature. Through multiple activities--consultation with an outside expert, syllabus review, analysis of student writing, and interviews with students--we seek to establish baseline information about student learning at three levels and formulate learning goals around which to organize ongoing assessment.
