

UCI Assessment Grant Program—Spring 2012 Proposal Abstracts

- **David Trend, Studio Art**

Funding is requested from the Studio Art Department to launch comprehensive new assessment activities during the 2012/2013 calendar year. Building on extensive curricular and programmatic revisions implemented during the past two years, as well as recently implemented specific assessment measures and data collection, Studio Art intends to develop detailed rubrics for selected learning outcomes, apply the rubrics in evaluating capstone learning projects, use the findings from this work in writing student performance standards, and schedule any curricular or programmatic revisions this process might suggest.
