

UCI Assessment Grant Program—Spring 2013 Proposal Abstracts

- **Christine Connell and Carol Burke, Humanities Core Program**

In order to promote the development of course curriculum and maximize student learning, Humanities Core Course proposes to re-implement its year-long study. Conducting the study in conjunction with our new cycle, *War*, is essential for the purposes of testing, measuring, and analyzing the efficacy of our teaching methods, writing prompts, and overall course design. We want to ensure that we are highlighting the methodological purposes unique to our lecturers and our individual writing prompts, and moreover, assess the particular student learning that are a result thereof. The assessment process ensures the efficacy of the methods, but most importantly, gives the course concrete information about how to target key areas of writing methods that students need the most help with.
